

CHANNELS AND DUCTS

Concrete Channels used for Cable Ducting, Pipe Protection or Water Channels

U - Channel	Width	Height	Length	Weight
MCGUC1500x1845x675HD	External	External	1500	1850
	1845	675		
	Internal	Internal		
	1498 -1525	500		

U – Channel Lid	Width	Height	Length	Weight
MCGUC1500HDLID	1845	200	1500	1430

Heavy Duty HD60 design loading

Installation procedures may differ based on site conditions and specific needs. Nonetheless, it is crucial to establish a thoroughly compacted, level base to mitigate any variance in settling.

When necessary, consider applying mass concrete to either the base or sides of the channel to reduce the potential damage from traffic loads.
